Construction Update

As the weather is improving, the pace of construction is accelerating. Most of the roof is now complete, and some of the windows have been installed.

Winter weather delays have pushed our estimated completion date by a few weeks – now we expect to move into the new building in June.

The Building Team got a quick tour after last Tuesday's meeting, and had a chance to appreciate the scale of the interior. It's going to be a beautiful building! Once the building is fully enclosed and some of the mud is gone, our contractor will schedule an opportunity for all of us to tour the new building on a convenient Sunday.

Organ Update

You did it! The congregation has given and pledged enough to proceed with the construction and installation of our organ, and our mortgage lender has approved the plan. Holtkamp Organ will begin working on our instrument soon, and it will be installed in our new sanctuary before we move in!

Pews for New Sanctuary

The good news continues: we've received donations for several more pews.

There are still opportunities to make a special or memorial gift of furnishings for our new sanctuary, but time is growing short for furnishings to be manufactured for installation before we move into the building. (We'll be able to use our existing furnishings as needed, of course.) You can see some of the gift possibilities in our [Furnishings Brochure](#). Printed brochures are also available in the narthex.
