Construction Begins on New Building!

Here are some of the things you'll notice:

There's an area near the back of our lot designated for construction equipment parking.

The entrance way at the front of the current building was widened to allow access around the new construction site.

Several trees have been removed to make way for the new building foundation

The construction site has been fenced, and the foundation excavation has been started:

Trees by “the grove” have been removed to make way for a new parking area.

Additional Mortgage Approved

We received approval from Mission Investment Fund for a mortgage of \$1.46 million. This is an increase from the original approval, and is sufficient to completely fund the building. It is, however, less than the full amount we requested. The Building Team will be meeting next week to plan next steps.

Now would be a great time to fulfill your pledge or make an additional gift to the Capital Campaign!
